JAAPA 1996 ANNUAL INDEX

Subject Index

A

Abuse, substance

Hazard in a hard month (E), Dec: 6-10

Identifying and treating the substance abuser, Dec: 21-31

A survey of PA program substance abuse curricula, Dec: 32-45

Acrochordon

Naming the neoplasm (D), Dec: 60-63

Acquired immunodeficiency syndrome (AIDS)

Caring for the HIV-positive patient: How much can PAs do? Sep: 30-38; Exciting changes in treatment, Oct: 52-61

Gene therapy: Surveying the clinical frontier, Jul: 66-72

HIV and AIDS: PAs can make a difference (E), Oct: 8-14

Home testing for HIV: Old proposal reexamined (LL), Jun: 77-110

How to manage hematologic changes in HIV and AIDS, May: 69-83

Outpatient management of HIV infection, Nov: 40-51

Adolescent medicine

Guidelines for PAs: Strengthening parent-teenager relationships, Jan: 57-66

Alcohol detoxification

Insights from psychiatry: A protocol for rapid and safe alcohol detoxification (S), Jan: 77-81

American Academy of Physician Assistants

Bringing polish to the Big Apple (L), Feb: 10

An FMG is a PA is not an MD (L), Apr: 23

Identifying and treating the substance abuser, Dec: 21-31

Leadership in partnership (PR), Jul: 23-26

"PA" should also stand for "professional attitude" (L), Mar: 110

Snapshots from the 1996 Annual Physician Assistant Conference, Jul: 32-48

Why we must reshape the organization (E), Feb: 16-21

Antibiotics

Changing the tide of infectious disease (E), Nov: 8-13

How bacteria resist antibiotics, Nov: 33-38

Smart antibiotic prescribing, Nov: 22-32

Antihypertensive therapy

Strategies to manage compliance, Jan: 41-51

B

Bacterial resistance

How bacteria resist antibiotics, Nov: 33-38

Bovine spongiform encephalopathy

Bovine spongiform encephalopathy: Cause for concern in the US? Aug: 43-47

C

Cardiac catheterization

More on the technique and utility of basic cardiac tests, Mar: 64-70

Cardiac testing

Common cardiac tests, Nov/Dec: 20-29

More on the technique and utility of basic cardiac tests, Mar: 64-70

Cardiology

Common cardiac tests, Nov/Dec: 20-29

Counseling CAD patients on cholesterol reduction, Jun: 37-52

Defining the clinical benefit of lowering cholesterol, May: 36-47

More on the technique and utility of basic cardiac tests, Mar: 64-70

Catheterization, cardiac

More on the technique and utility of basic cardiac tests, Mar: 64-70

Catheterization, Foley

A difficult bedside insertion of a Foley catheter (S), Aug: 63-72

Chemoprophylaxis for HIV exposure

Caring for the HIV-positive patient: How much can PAs Do? Sep: 30-38; Exciting changes in treatment, Oct: 52-61

Chickenpox

Chickenpox, in an adult male (D), Oct: 79-89

Cholesterol

Counseling CAD patients on cholesterol reduction, Jun: 37-52

Defining the clinical benefit of lowering cholesterol, May: 36-47

Chronic pain

How to help women who have chronic pelvic pain, Apr: 46-58

Classification of hypertension

Stage 1 hypertension: Treatment considerations and realities, Jan: 28-38

Colposcopy

Abnormal Pap smears: When is colposcopy needed? Jan: 71-75

Community-acquired pneumonia

Approaches to community-acquired pneumonia, Nov: 64-70

Contact dermatitis

Signs of Spring: Plant contact dermatitis (D), May: 99-102

Contraception

Fitting a diaphragm, (PF), Aug: 73-75

How to fit a cervical cap (PF), Jun: 83-86

Coronary artery disease

Common cardiac tests, Nov/Dec: 20-29

Counseling CAD patients on cholesterol reduction, Jun: 37-52

Defining the clinical benefit of lowering cholesterol, May: 36-47

Gene therapy: Surveying the clinical frontier, Jul: 66-72

More on the technique and utility of basic cardiac tests, Mar: 64-70

Creutzfeldt-Jakob disease

Bovine spongiform encephalopathy: Cause for concern in the US? Aug: 43-47

Croup

Clearing the air on croup, Feb: 73-78

D

Delirium

Delirium or dementia? Making a clinically important distinction, Apr: 24-41

Dementia

Delirium or dementia? Making a clinically important distinction, Apr: 24-41

LEGEND: (B) Book Review (D) Dermatology Digest (DX) Diagnostic Imaging Review (E) Editorial (L) Letters (LL) Lessons from the Lab (P) Pediatric Pearls (PF) Procedures in Family Practice (PR) President's Message (Q) Issues in Quality Care (R) In Retrospect (S) Specialty Corner (SB) Sounding Board

Dermatofibroma
Naming the neoplasm (D), Dec: 60-63

Dermatology
Naming the neoplasm (D), Dec: 60-63
Signs of Spring: Plant contact dermatitis (D), May: 99-102
Simplified treatment of psoriasis for the adult patient, Apr: 63-74

Detoxification
Insights from psychiatry: A protocol for rapid and safe alcohol detoxification (S), Jan: 77-81

Dihydroergotamine
Treating acute pain in a desperate headacher, Mar: 27-47

Disease prevention. *See* **Preventive medicine.**

E

Echocardiography
More on the technique and utility of basic cardiac tests, Mar: 64-70

Emergency medicine
Christmas in the ER (R), Nov: 19-20
Evaluating syncope as an emergency, Feb: 34-47
Immediate gratification, with a COBRA smile (SB), May 115-118
Treating acute pain in a desperate headacher, Mar: 27-47

End-of-life decisions
Don't oversimplify life-and-death decisions (L), Jan: 102

Endometrial sampling
In-office endometrial sampling with a Pipelle (PF), Feb: 99-102

Endometritis
Postpartum endometritis, Nov: 52-61

Epidermal inclusion cyst
Naming the neoplasm (D), Dec: 60-63

Epistaxis
Nosebleeds and an abnormal CBC (LL), Feb: 113-118

Erythropoietin
How to manage hematologic changes in HIV and AIDS, May: 69-83
Injecting erythropoietin without causing pain (L), Oct: 89

F

Foley catheterization
A difficult bedside insertion of a Foley catheter (S), Aug: 63-72

Foreign medical graduate (FMG)
The "doctor" debate continues (L), Sep: 114
An FMG is a PA is not an MD (L), Apr: 23
Prying open a "can of worms" (E), Apr: 9-12

Forensic medicine
Forensic medicine—for, and about, PAs, May: 53-65

FUO
Approaches to community-acquired pneumonia, Nov: 64-70

G

Gastric cancer
H pylori and gastric cancer: Is there a relationship? Aug: 28-39
H pylori article stirs up some questions (L), Oct: 80

Gene therapy
Gene therapy: Surveying the clinical frontier, July: 66-72
A primer for PAs: The prospects for gene therapy in practice, Jun: 24-33

Gynecology
Guidelines for PAs: Strengthening parent-teenager relationships, Jan: 57-66
How to fit a cervical cap (PF), Jun: 83-86
How to help women who have chronic pelvic pain, Apr: 46-58
In-office endometrial sampling with a Pipelle (PF), Feb: 99-102
Postpartum endometritis, Nov: 52-61

H

Hand injuries
Detecting commonly missed hand and wrist injuries, Oct: 24-35

Headache
Treating acute pain in a desperate headacher, March: 26-47

Health care costs
Counting the cost of Sam, Feb: 66-71

Health care reform
A postmortem on health care reform (B), Jun: 90-110

Health promotion
Promoting health strategies (B), Apr: 102

Hematology
How to manage hematologic changes in HIV and AIDS, May: 69-83
Nosebleeds and an abnormal CBC (LL), Feb: 113-118

Histoplasmosis
Newer therapy for histoplasmosis (L), Aug: 96

HMG-CoA reductase inhibitors
Defining the clinical benefit of lowering cholesterol, May: 36-47

H pylori
H pylori and gastric cancer: Is there a relationship? Aug: 28-39
H pylori article stirs up some questions (L), Oct: 80

Human immunodeficiency virus (HIV)
Caring for the HIV-positive patient: How much can PAs do? Sep: 30-38; Exciting changes in treatment, Oct: 52-61
Gene therapy: Surveying the clinical frontier, July: 66-72
HIV and AIDS: PAs can make a difference (E), Oct: 8-14
Home testing for HIV: Old proposal reexamined (LL), Jun: 77-110
How to manage hematologic changes in HIV and AIDS, May: 69-83
Outpatient management of HIV infection, Nov: 40-51

Hyperlipidemia
Defining the clinical benefit of lowering cholesterol, May: 36-47
Unfair "coverage" of obesity (L), Aug: 92-95

Hypertension
Antihypertensive therapy: Strategies to manage compliance, Jan: 41-54
Stage 1 hypertension: Treatment considerations and realities, Jan: 28-38

Hypolipidemic therapy
Counseling CAD patients on cholesterol reduction, Jun: 37-52
Defining the clinical benefit of lowering cholesterol, May: 36-47

I

Impairment, professional
Legal issues surrounding professional impairment (Q), Dec: 16-19

Infectious disease
An approach to FUO, Nov: 73-80
Approaches to community-acquired pneumonia, Nov: 64-70
Bovine spongiform encephalopathy: Cause for concern in the US? Aug: 43-47
Caring for the HIV-positive patient: How much can PAs Do? Sep: 30-38; Exciting changes in treatment, Oct: 52-61
Changing the tide of infectious disease (E), Nov: 8-13
Chickenpox, in an adult male (D), Oct: 79-89
Clearing the air on croup, Feb: 73-78
Combatting an outbreak of *Neisseria* meningitis, Mar: 72-81
HIV and AIDS: PAs can make a difference (E), Oct: 8-14
Home testing for HIV: Old proposal reexamined (LL), Jun:77-110
How bacteria resist antibiotics, Nov: 33-38
How to manage hematologic changes in HIV and AIDS, May: 69-83
H pylori and gastric cancer: Is there a relationship? Aug: 28-39
Lyme disease: Ready cure, but a challenging diagnosis, Oct: 39-50
Outpatient management of HIV infection, Nov: 40-51
Postpartum endometritis, Nov: 52-61
Smart antibiotic prescribing, Nov: 22-32
UTI in children: Common but potentially complicated, Jul: 51-65

L

Leukoencephalopathy
A middle-aged woman with focal neurologic deficits (DX), Nov: 89-90

Liability, professional
Legal issues surrounding professional impairment (Q), Dec: 16-19

Lyme disease
Lyme disease: Ready cure, but a challenging diagnosis, Oct: 39-50

M

Mad cow disease
Bovine spongiform encephalopathy: Cause for concern in the US? Aug: 43-47

Malpractice
A look at leading malpractice risk issues (Q), Mar: 23-24

Managed care
Conflicts and quandaries in caring (E), Jun: 9-12
Managed care: The future is upon us, Dec: 47-53
Managed care focuses on profits, not patients (L), Oct: 80-89
Thriving in a nonprofit HMO (L), Sep: 114

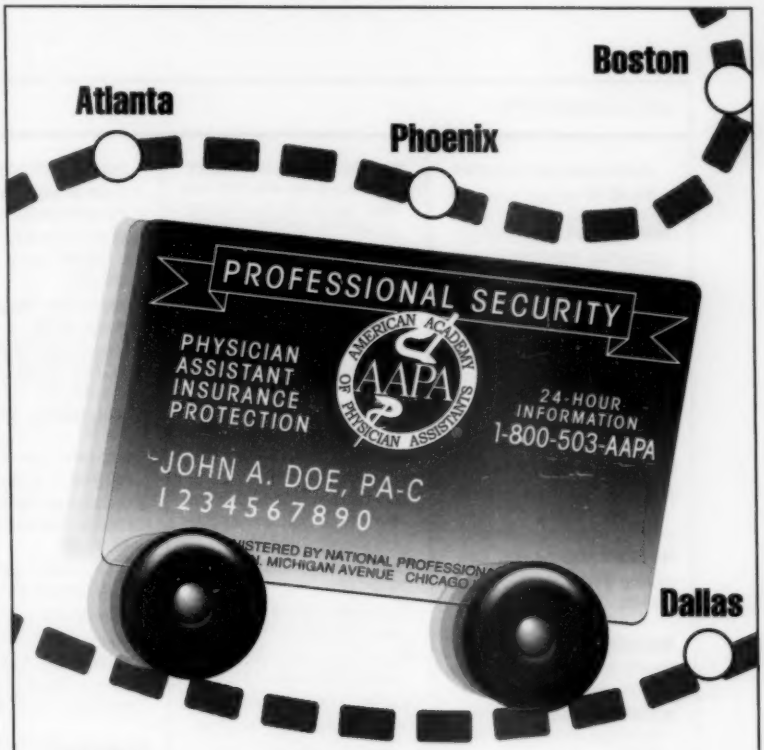
Medical communication
Using the telephone to give more and better care, Sep: 41-48

Medical economics
Compliance: Convincing the patient it's not a matter of choice, Feb: 51-61
Counting the cost of Sam, Feb: 66-71
Should we shut down our hospitals of last resort? (E), May: 9-14

Medical profession, status of
Medicine as we knew it, gone (B), May: 105-106

Meningitis
Combatting an outbreak of *Neisseria* meningitis, Mar: 72-81

Mini-Mental Status Examination
Delirium or dementia? Making a



This card guarantees your liability protection follows you wherever you work.

You'll always have the best coverage available no matter how often you change jobs.

AMERICAN ACADEMY OF PHYSICIAN ASSISTANTS AAPA ENDORSED

Follow your star ... the Professional Security card loves to travel! This is the *only* AAPA-endorsed plan that offers occurrence coverage – the most secure coverage you can have.

It even protects you against claims if you moonlight or are insured by a physician/employer who retires.

This comprehensive plan protects you for life – even after your insurance policy has expired. It's also designed to meet the needs of PAs who are self-employed, independent contractors, and are insureds on other policies.

Our 24-hour risk-managment hotline is open to you if you have questions about, or want to report potential or actual malpractice claims. Call *now* to protect your career with the best coverage available. Anywhere.

Anytime.

clinically important distinction, Apr: 24-41

Munchausen syndrome

Uncovering Munchausen syndrome by proxy (P), Sep: 79-88

N

***Neisseria* meningitis**

Combatting an outbreak of *Neisseria* meningitis, March: 72-81

Nosebleeds

Nosebleeds and an abnormal CBC (LL), Feb: 113-118

Neurofibroma

Naming the neoplasm (D), Dec: 60-63

Neurology

How to help women who have chronic pelvic pain, Apr: 46-58

A middle-aged woman with focal neurologic deficits (DX), Nov: 89-90

O

Obsessive-compulsive disorder

Obsessive-compulsive disorder: Recognition and clinical management, Sep: 50-64

Obstetrics

Postpartum endometritis, Nov: 52-61

Oncology

Gene therapy: Surveying the clinical frontier, July: 66-72

H pylori and gastric cancer: Is there a relationship? Aug: 28-39

Naming the neoplasm (D), Dec: 60-63

Orthopedics

Detecting commonly missed hand and wrist injuries, Oct: 24-35

A middle-aged woman with thumb pain (DX), Mar: 83-84

Osteomyelitis

A middle-aged woman with thumb pain (DX), Mar: 83-84

P

PA education

The birth of a PA program, Dec: 54-58

Caring for the HIV-positive patient: How much can PAs Do? Part One, Sep: 30-38; Part Two, Oct: 52-61

Commencement reflections: Remember who you work for (SB), Jun: 15-18

Counseling CAD patients on cholesterol reduction, June: 37-52

Don't always aim so high: Thoughts on PA education (L), Aug: 92

In a growing profession, implications for PA education, May: 84-96

More commencement reflections: On privilege, skill, and opportunity (SB), Jul: 101-102

More on a book reviewed (L), Mar: 110-112

PA education is everyone's concern (PR), Aug: 23-26

PAs write an ample book about disease (B), Feb:96-118

A survey of PA program substance abuse curricula, Dec: 32-45

PA evaluation

Information technology in practice: Tools for evaluating performance quality (Q), Sep: 21-28

Pain management

How to help women who have chronic pelvic pain, Apr: 46-58

Pain relief with trigger point injection (PF), Apr: 97-100

Treating acute pain in a desperate headacher, Mar: 27-47

PA practice

Answering the call to be a "healer" (L), Jan: 102

Applying practice guidelines wisely and effectively, Sep: 57-75

The birth of a PA program, Dec: 54-58

Caring for the HIV-positive patient: How much can PAs do? Part One, Sep: 30-38; Part Two, Oct: 52-61

Christmas in the ER (R), Nov: 19-20

Commencement reflections: Remember who you work for (SB), Jun: 15-18

Comparing urban and rural primary care PAs: Implications for rural recruitment, Aug: 49-60

Contemplating the saviors of summer (E), Jul: 9-15

Disease prevention: Educating and counseling patients, Mar: 51-61

Forensic medicine—for, and about, PAs, May: 53-65

A guide to procedures, familiar and otherwise (B), Jan:101

Immediate gratification, with a COBRA smile (SB), May 115-118

Managed care: The future is upon us, Dec: 47-53

PA Watch, Jan: 85-86; Feb: 87-90; Mar: 93-94; Apr: 83-84; May: 146; Jun: 112, Jul: 93-94; Aug: 82-84; Sep: 93-94; Oct: 90

Prying open a "can of worms" (E), Apr: 9-12

Snapshots from the 1996 Annual Physician Assistant Conference, Jul: 32-48

A survey of PA program substance abuse curricula, Dec: 32-45

Too late (R), Oct: 17-20

Using the telephone to give more and better care, Sep: 41-48

What you must know about discontinuing care (Q), May: 24-31

PA profession

The PA profession: Charting a course (E), Aug:8-14

Why we must reshape the organization (E), Feb: 16-21

Pap smears

Abnormal Pap smears: When is colposcopy needed? Jan: 71-76

PA recruitment

Comparing urban and rural primary care PAs: Implications for rural recruitment, Aug: 49-60

Parent-teenager relationships

Guidelines for PAs: Strengthening parent-teenager relationships, Jan: 57-66

Patient compliance

Compliance: Convincing the patient it's not a matter of choice, Feb: 51-61

Antihypertensive therapy: Strategies to manage compliance, Jan: 41-54

Patient education

Antihypertensive therapy: Strategies to manage compliance, Jan: 41-54

Combatting an outbreak of *Neisseria* meningitis, Mar: 72-81

Compliance: Convincing the patient it's not a matter of choice, Feb: 51-61

Counseling CAD patients on cholesterol reduction, Jun:37-52

Counseling to prevent tobacco use, Oct: 63-69

Disease prevention: Educating and counseling patients, Mar: 51-61

Guidelines for PAs: Strengthening parent-teenager relationships, Jan: 57-66

How to help women who have chronic pelvic pain, Apr: 46-58

Improving your patient education skills (B), Sep: 100-102

Pearls from geriatrics, or a long line at the bathroom (SB), Apr: 77-78

Stage 1 hypertension: Treatment considerations and realities, Jan: 28-38

Talk more, test less (E), Mar: 11-15

Patient evaluation

Home testing for HIV: Old proposal reexamined (LL), Jun:77-110

The suicidal patient: Identifying, evaluating, and intervening, June: 58-73

The periodic health examination: Using age-specific charts, Jul: 75-89

Patient information

Tips on taking medicines, Feb: 65

When your child has croup, Feb: 83

Pediatrics

This is not the Year of the Lamb (E), Jan: 13-16

UTI in children: Common but potentially complicated, Jul: 51-65

Pelvic pain

How to help women who have chronic pelvic pain, Apr: 46-58

Multidisciplinary approach emphasized in treating chronic pelvic pain (L), Aug: 95-96

Periodic health examination. *See* **Preventive medicine.**

Pneumonia

Approaches to community-acquired pneumonia, Nov: 64-70

Practice guidelines

Applying practice guidelines wisely and effectively, Sep: 67-75

Guidelines for PAs: Strengthening parent-teenager relationships, Jan: 57-66

PAs among the guidelines (E), Sep: 8-12

Prescribing

Compliance: Convincing the patient it's not a matter of choice, Feb: 51-61

Preventive medicine

Combatting an outbreak of *Neisseria* meningitis, Mar: 72-81

Counseling to prevent tobacco use, Oct: 63-69

Disease prevention: Educating and counseling patients, Mar:51-61

The periodic health examination: Using age-specific charts, Jul: 75-89

Promoting health strategies (B), Apr: 102

Talk more, test less (E), Mar: 11-15

Progressive multifocal leukoencephalopathy

A middle-aged woman with focal neurologic deficits (DX), Nov: 89-90

Psoriasis

Simplified treatment of psoriasis for the adult patient, Apr: 63-74

Psychiatric medicine

Counseling to prevent tobacco use, Oct: 63-69

Delirium or dementia? Making a clinically important distinction, Apr: 24-41

Insights from psychiatry: A protocol for rapid and safe alcohol detoxification (S), Jan: 77-81

Obsessive-compulsive disorder: Recognition and clinical management, Sep: 50-64

Prying open a "can of worms" (E), Apr: 9-12

The suicidal patient: Identifying, evaluating, and intervening, Jun: 58-73

Uncovering Munchausen syndrome by proxy (P), Sep: 79-88

Pulmonary medicine

Approaches to community-acquired pneumonia, Nov: 64-70

Clearing the air on croup, Feb: 73-78

Q

Quality assurance

Information technology in practice: Tools for evaluating performance quality (Q), Sep: 21-28

R

Recruitment

Comparing urban and rural primary care PAs: Implications for rural recruitment, Aug: 49-60

Resistance. *See* **Bacterial resistance.**

Rural practice. *See* **PA practice.**

S

Smoking cessation

Counseling to prevent tobacco use, Oct: 63-69

Too late (R), Oct: 17-20

Substance abuse

Hazard in a hard month (E), Dec: 6-10

Identifying and treating the substance abuser, Dec: 21-31

A survey of PA program substance abuse curricula, Dec: 32-45

Suicide

The suicidal patient: Identifying, evaluating, and intervening, June: 58-73

Sumatriptan

Treating acute pain in a desperate headacher, Mar: 27-47

Syncope

Evaluating syncope as an emergency, Feb: 34-47

T

Tobacco use

Counseling to prevent tobacco use, Oct: 63-69

Tobacco, the new *haute cuisine* (SB), Oct: 73-75

Too late (R), Oct: 17-20

Telemedicine

Using the telephone to give more and better care, Sep: 41-48

Trigger point, injection of

Pain relief with trigger point injection (PF), Apr: 97-100

U

Urban practice. *See* **PA practice.**

Urinary tract infection

UTI in children: Common but potentially complicated, Jul: 51-65

Urology

A difficult bedside insertion of a Foley catheter (S), Aug: 63-72

UTI in children: Common but potentially complicated, Jul: 51-65

W

Withdrawal from care

What you must know about discontinuing care (Q), May: 24-31

Wrist injuries

Detecting commonly missed hand and wrist injuries, Oct: 25-35
